

American Association of Physical Anthropologists

Ifa Lethu Project Officer Liezl Kok attended the 81st Annual Meeting of the American Association of Physical Anthropologists in Portland, Oregon during April 2012.04.19

Attended by more than 6000 delegates from across the globe, our fossil casting programme was well received.

Liezl took samples of the current casts and full details of the programme. It was discovered that there are only 2 commercial organisations offering fossil casts globally, our being one of them. This is a highly scarce skill and delegates revealed that most museums and research organisations do not have this skill in house.

Further collaborations with universities in America, Argentina and Spain were discussed and will be followed up.
